Parent Signature: _____

Due on or before Friday, September 3, 2010

Entering Grade 5 Summer Math Information

Summer Math Packet: Attached you will find the “Entering Grade 5 Frenchtown Summer Math Packet.” Included you will find “math problem” calendars for the summer months, multiplication and division practice sheets, a list of recommended websites, and a recording sheet for websites visited. Our hope is that your child will do a little math each day!

Practicing Multiplication Combinations: On the calendar, you will notice that on each Sunday, we have suggested a times table for that week’s study and review. We have also included a multiplication and division worksheet for each table listed. If you adhere to the schedule, your child should be able to practice all the way from the 2s to the 12s by the time he/she returns in the fall. We highly recommend that your child spends at least 10 minutes a day working on these facts to improve his/her fluency. *Please be aware that your child’s success in Grade 5 mathematics will largely hinge on his/her fluency with these combinations.*

- Be sure to have a set of both multiplication and division flash cards.
- Divide the sets by groupings and work on a table at a time. (See calendar for suggested pacing.)
- Make a pile of “Facts I know” and a pile of “Facts I’m working on.” Try to make the latter pile smaller and smaller as the summer progresses!
- Use the cards to play “Fact War.” Each player flips a card and solves. The higher answer (product) wins the war.
- Play a timed game. See how many cards your child can get through in a set amount of time. Up the goal each time you play.
- Author Greg Tang has a wonderful book titled, The Best of Times, filled with great strategies for learning the basic multiplication combinations. It can be found at the library or in a local bookstore.

Additional Ideas: Encourage your child to play math games: cards, board games, sports, etc. If your child likes to cook, focus on the math needed to follow and make recipes. If you are traveling over the summer, take out a map and find the distance between home and your destination or vice versa. Find “Math Moments” and capitalize on them!

Once again, remember to return the signed packet ON OR BEFORE Friday, September 3, 2010.

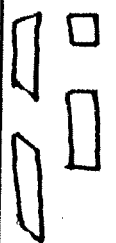

Thank you for your support!

The Frenchtown Math Team ☺

Entering Grade 5 Website Ideas

~~We no longer have our Teacher Web account~~ ☹

1. The Frenchtown Math Resource Page "4th and 5th Grade Math Links" page has a ton of websites to visit!
~~<http://teacherweb.com/C/T/Frenchtown/Grdwani/SD3L2.stm>~~
2. The Trumbull Public Schools "Math Links" page:
<http://trumbullps.org/math2.htm>
3. www.quizhub.com Click on FUN MATH GAMES, then "Math Magician" from the menu on the right. Practice addition, subtraction, multiplication, and division with a timer! You can even print out a certificate when you reach 100% during a given amount of time.
4. <http://www.honorpoint.com/> This has timed drills as well as tests for each times table.
5. http://www.multiplication.com/interactive_games.htm
6. <http://www.aplusmath.com/Flashcards/>
7. <http://www.amblesideprimary.com/ambleweb/mentalmaths/testtest.html>
8. <http://www.hoagiesgifted.org/multiplication.htm>
9. <http://www.brainormous.com/>

This works!!
